

QUILT SLEEVE INSTRUCTIONS FOR 4" SLEEVE
Mary Ann Hildebrand
HCQG Meeting – April 15, 2019

Cut sleeve fabric 8.5" x width of quilt minus 1" Hem short sides of sleeve by turning under 1/4" twice.

Lightly press the sleeve in half lengthwise, wrong sides together.

Open sleeve. Turn long edges to meet center press line from both sides. **Press the new fold lines firmly.**

Open sleeve. With wrong sides together, fold in half lengthwise. Sew 1/4" seam down length of sleeve.

With the sleeve seam toward the back of the quilt, pin one of the previously pressed fold lines of the sleeve approximately 1/2 inch from top of quilt.

Pin the bottom edge of the sleeve along the other previously pressed fold line. This will leave an easement in the sleeve for the rod.

Hand stitch the sleeve in place making sure your stitches do not go through to the front of the quilt. Also be sure to stitch down the back side of the sleeve opening.
